

Desert Safari By 4 x 4

We collect you from your hotel in a luxury 4x4 'Jeep', then as the heat of the day begins to recind, we head south and into the desert to begin your journey of discovery.

As we travel into the apparently emptiness your guide will endeavor to point out the sets and burrows of the abundant wildlife that inhabits the environment; desert fox; gazelle; wild camels to name a few.

You will visit a traditional Bedouin Village were you will be offered tea, cold drinks and shesha. A brief tour of the village will enlighten you about the everyday life of these resourceful people; hand dug water wells, pigeon coops, herd animals all provide important keys to life in the desert.

Finally you will find a high point in the desert to watch the sunset over the mountains in the East crowning a very special voyage into another world

If you would like to make your adventure something uniquely tailored for you, we can offer a Bedouin Camel Trek or you could stay late into the evening to enjoy a traditionally prepared dinner in the desert and marvel at the awesome night sky.
